CARDIAC TECHNICIAN TO INTERMEDIATE TRANSITION PROGRAM

The *Cardiac Technician to Intermediate Transition Program* is a program of instruction that approaches new or expanded topic areas of the *Intermediate Curricula* in a CE format. Much of this information was not covered in the Cardiac Technician Program. The *Transition Program* assumes that the Cardiac Technician has a thorough understanding of the objectives that are primarily taught in the *Virginia Cardiac Technician Curricula* and therefore the instructor will emphasize the objectives highlighted.

The student should realize that the objectives of the *Virginia Cardiac Technician Curricula* that are similar to those in the Intermediate curricula may receive only a brief review. However, the student is responsible for **ALL** of the objectives in the *Intermediate Program*. It is recommended that the student review all of the objectives that are listed in the *Intermediate Curricula*, not just the objectives that are highlighted.

I _____ understand that I am
PRINT STUDENT'S NAME
responsible for all of the objectives of the *Intermediate Curricula* and that the instructor will primarily cover the new objectives from the *Intermediate Curricula*. My signature below attests that this has been explained to me and that I understand that I am responsible for all of the objectives in the *Intermediate Curricula* and not just the ones that are highlighted.
